Mamma's Lavender Sachets

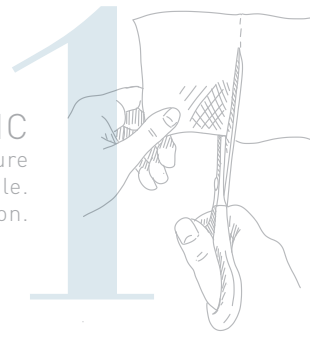

STEP BY STEP:

MATERIALS NEEDED:

- Cotton fabric of your choice
- Upholstery Batting
- Dried lavender
- Sewing machine / thread
- Scissors
- Iron
- Ribbon to finish (optional)

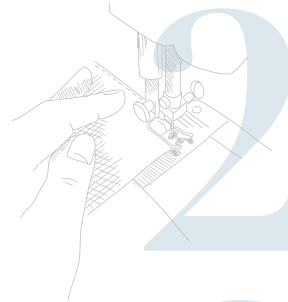

CUT FABRIC

To make one sachet, measure and cut a 10" rectangle. Fold in half and iron.

SEW THE SACHETS

Sew the sachets along the outer edge inside out. Try to sew as close to the edge as possible. Make sure to leave one side open for stuffing.

LITTLE DETAILS

Cut the inside corners. This will make it easier to pop out the corners. Then turn sachet right side out, sew 1/4" around, leaving one side open for stuffing.

STUFFING

Using upholstery batting blend, cut into smaller 3" squares, to fit into sewn sachets. Peel/butterfly the batting, placing 1 tsp of dried lavender in the center of the batting. Press closed, and gently stuff into open sachet.

HOME RUN

Once sachet is fully stuffed with batting and dried lavender, fold in open edge and iron, then carefully sew edge together to meet finished seam pushing inside stuffing aside, finish inner stitch to create the pillow look.

READY TO GIFT

Gather sachets together and wrap a ribbon of your choice around it, and voila, Your gift is complete!
